247400	Replacement Knob black/silver	Over time, your rotary knobs can get damaged or stripped due to the frequency of touch. You can bring your system back to pristine just by replacing these front knobs. Available in anodised black or painted Quartz, these knobs are matched to your existing units (includes silver finish units). Manufactured from Aluminium, these replacement knobs are OEM units, the same as applied to a new product.		15,97 €	19,00 €	
247650	3mm Speaker Adaptors / Set of Four	Some older Cyrus products require a 3mm speaker terminal. It can be difficult now to find suitable cables as 4mm connectors are much more common. These high-quality adaptors allow a cable to be connected directly, using a tightening nut at the back to grip the stripped cable, or simply allow a regular 4mm banana plug to be connected at right angles by plugging into the opening and secured by tightening.		30,25 €	36,00 €	
247758	BFA / 4mm Speaker Adaptors / Set of Four	Some Cyrus products such as the 6DAC and 82DAC use BFA connectors as speaker terminals. These terminations are easy to add to a length of cable. Simply remove the hard plastic shielding and use the small screw to grip your stripped length of cable before replacing the shielding. These connectors will work with any amplifier with either BFA or 4mm banana connectors.		13,45 €	16,00 €	
247759	3.5mm To RCA Phono Cable	This high-quality stereo splitter cable is perfect for use with Cyrus' soundKey and a host of other applications where a portable device needs to be connected to a traditional hi-fi or PA system. It uses a three-pole 3.5mm jack to 2 x colour coded RCA connections.		25,21 €	30,00 €	
247760	Cyrus bumpon Feet / Set of Four	Although it's a simple thing, it can be so annoying when missing. Here you can order replacement bumpon feet for all your Cyrus classic and XR products.		2,52 €	3,00 €	
247761	IR14 Remote	The Cyrus iR14 gives you full control over your Cyrus equipment and other infrared devices in your home. It can easily become your only remote, by learning the functions of up to two other remote controls. With a stylish design, intuitive layout and backlit keypad that responds to your every movement, the iR14 is a great way to control your Cyrus equipment.		66,39 €	79,00 €	
247762	Mains Power Cable Euro	Cyrus IEC power cables have been a stable part of the Cyrus livery for nearly two decades. Originally selected for offering high-quality copper cores and dielectrics, despite numerous reviews, they have yet to be surpassed in terms of performance. For optimum performance, a 'Ferrite Core' magnetic filter can be added to the IEC connector end of the cable (available separately).		10,08 €	12,00 €	
247763	MC-Bus Cables (Pair)	Cyrus classic and XR products use a communications system so the components can talk to each other. These are the cables used to connect the products together.		10,08 €	12,00 €	

247764	ONE Remote	A replacement remote control for the Cyrus ONE integrated amplifier		12,61 €	15,00 €	
247765	PSX-R Extension Cable 0,5m	The Cyrus PSX and PSX-R2 power supplies use a bespoke connection cable. These are 'extension' leads with male and female ends for if you wish to have longer cable runs for power amplifiers or separate source components.		57,98 €	69,00 €	
247766	PSX-R Extension Cable 1m	The Cyrus PSX and PSX-R2 power supplies use a bespoke connection cable. These are 'extension' leads with male and female ends for if you wish to have longer cable runs for power amplifiers or separate source components.		66,39 €	79,00 €	
247767	PSX-R Extension Cable 2m	The Cyrus PSX and PSX-R2 power supplies use a bespoke connection cable. These are 'extension' leads with male and female ends for if you wish to have longer cable runs for power amplifiers or separate source components.		74,79 €	89,00 €	
247770	THREE Remote	The THREE remote control is designed specifically for our Cyrus Three (Formerly Lyric) all in one system, using a slightly different button configuration and software to our standard remote system.		66,39 €	79,00 €	
247771	Soundkey Cable USB-C	A sleek braided USB C to Micro cable, sturdy and durable as designed to be used alongside the Cyrus soundKey.		10,08 €	12,00 €	
247772	Soundkey Cable USB-Micro B	A short but simple braided USB micro b to micro b cable, designed to be used with our Cyrus soundKey connecting to android devices that have Micro USB OTG connectivity. Braiding the cable allows it to healthily flex when being used on the go with mobile devices.		5,04 €	6,00 €	
247952	Speaker Cables - High Performance CCA (Pair)	An audiophile-grade Copper-Coated Aluminium (CCA) loudspeaker cable, we have used a solid Aluminium core, with an extremely high purity 'oxygen-free' copper skin. The detail is enhanced, as is control over the lower frequencies. This is our reference cable for the testing of new products, although we do also test using leading specialist cables to ensure neutrality.		66,39 €	79,00€
